WHO ARE WE?

We are Tututis, a baby stroller producer from Lithuania. We started as a small family business and through long-term experience, development and research, we have managed to establish two successful stroller brands, develop a wide portfolio of products and become the only baby stroller producer in the entire Baltic States.

ACHIEVEMENTS

The fastest growing company of 2013

The product appreciated with a gold medal in 2015

The product appreciated with a gold medal in 2017

Stroller of the year 2021

Made for mums awards 2021

Made for mums awards 2022

Nagroda konsumenta gold medal 2022

EXHIBITIONS

Poland, Kielce since 2014

Germany, Cologne since 2018

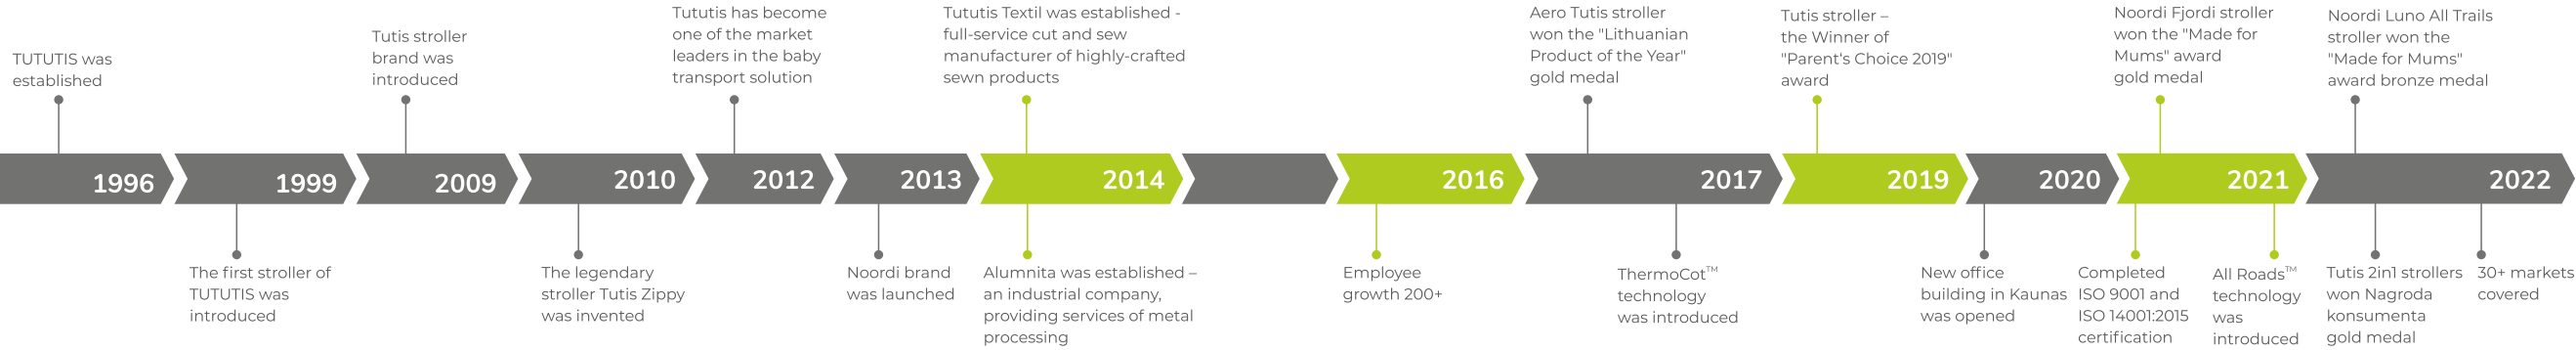

United Kingdom, Birmingham since 2015

Ukraine, Kiev 2020

TIMELINE

26+ YEARS IN BABY TRANSPORT

2 INNOVATIONS

Over the years Tututis in-house engineering team has developed, and trademarked 2 innovations

200+ EMPLOYEES

300 SOLAR PANELS

32 MARKETS IN WHICH OUR PRODUCTS ARE SOLD

OVER 50,000

STROLLERS MANUFACTURED PER YEAR

Mission

Our mission is to create innovative baby transport solutions, enjoyable for parents and safe for babies.

Vision

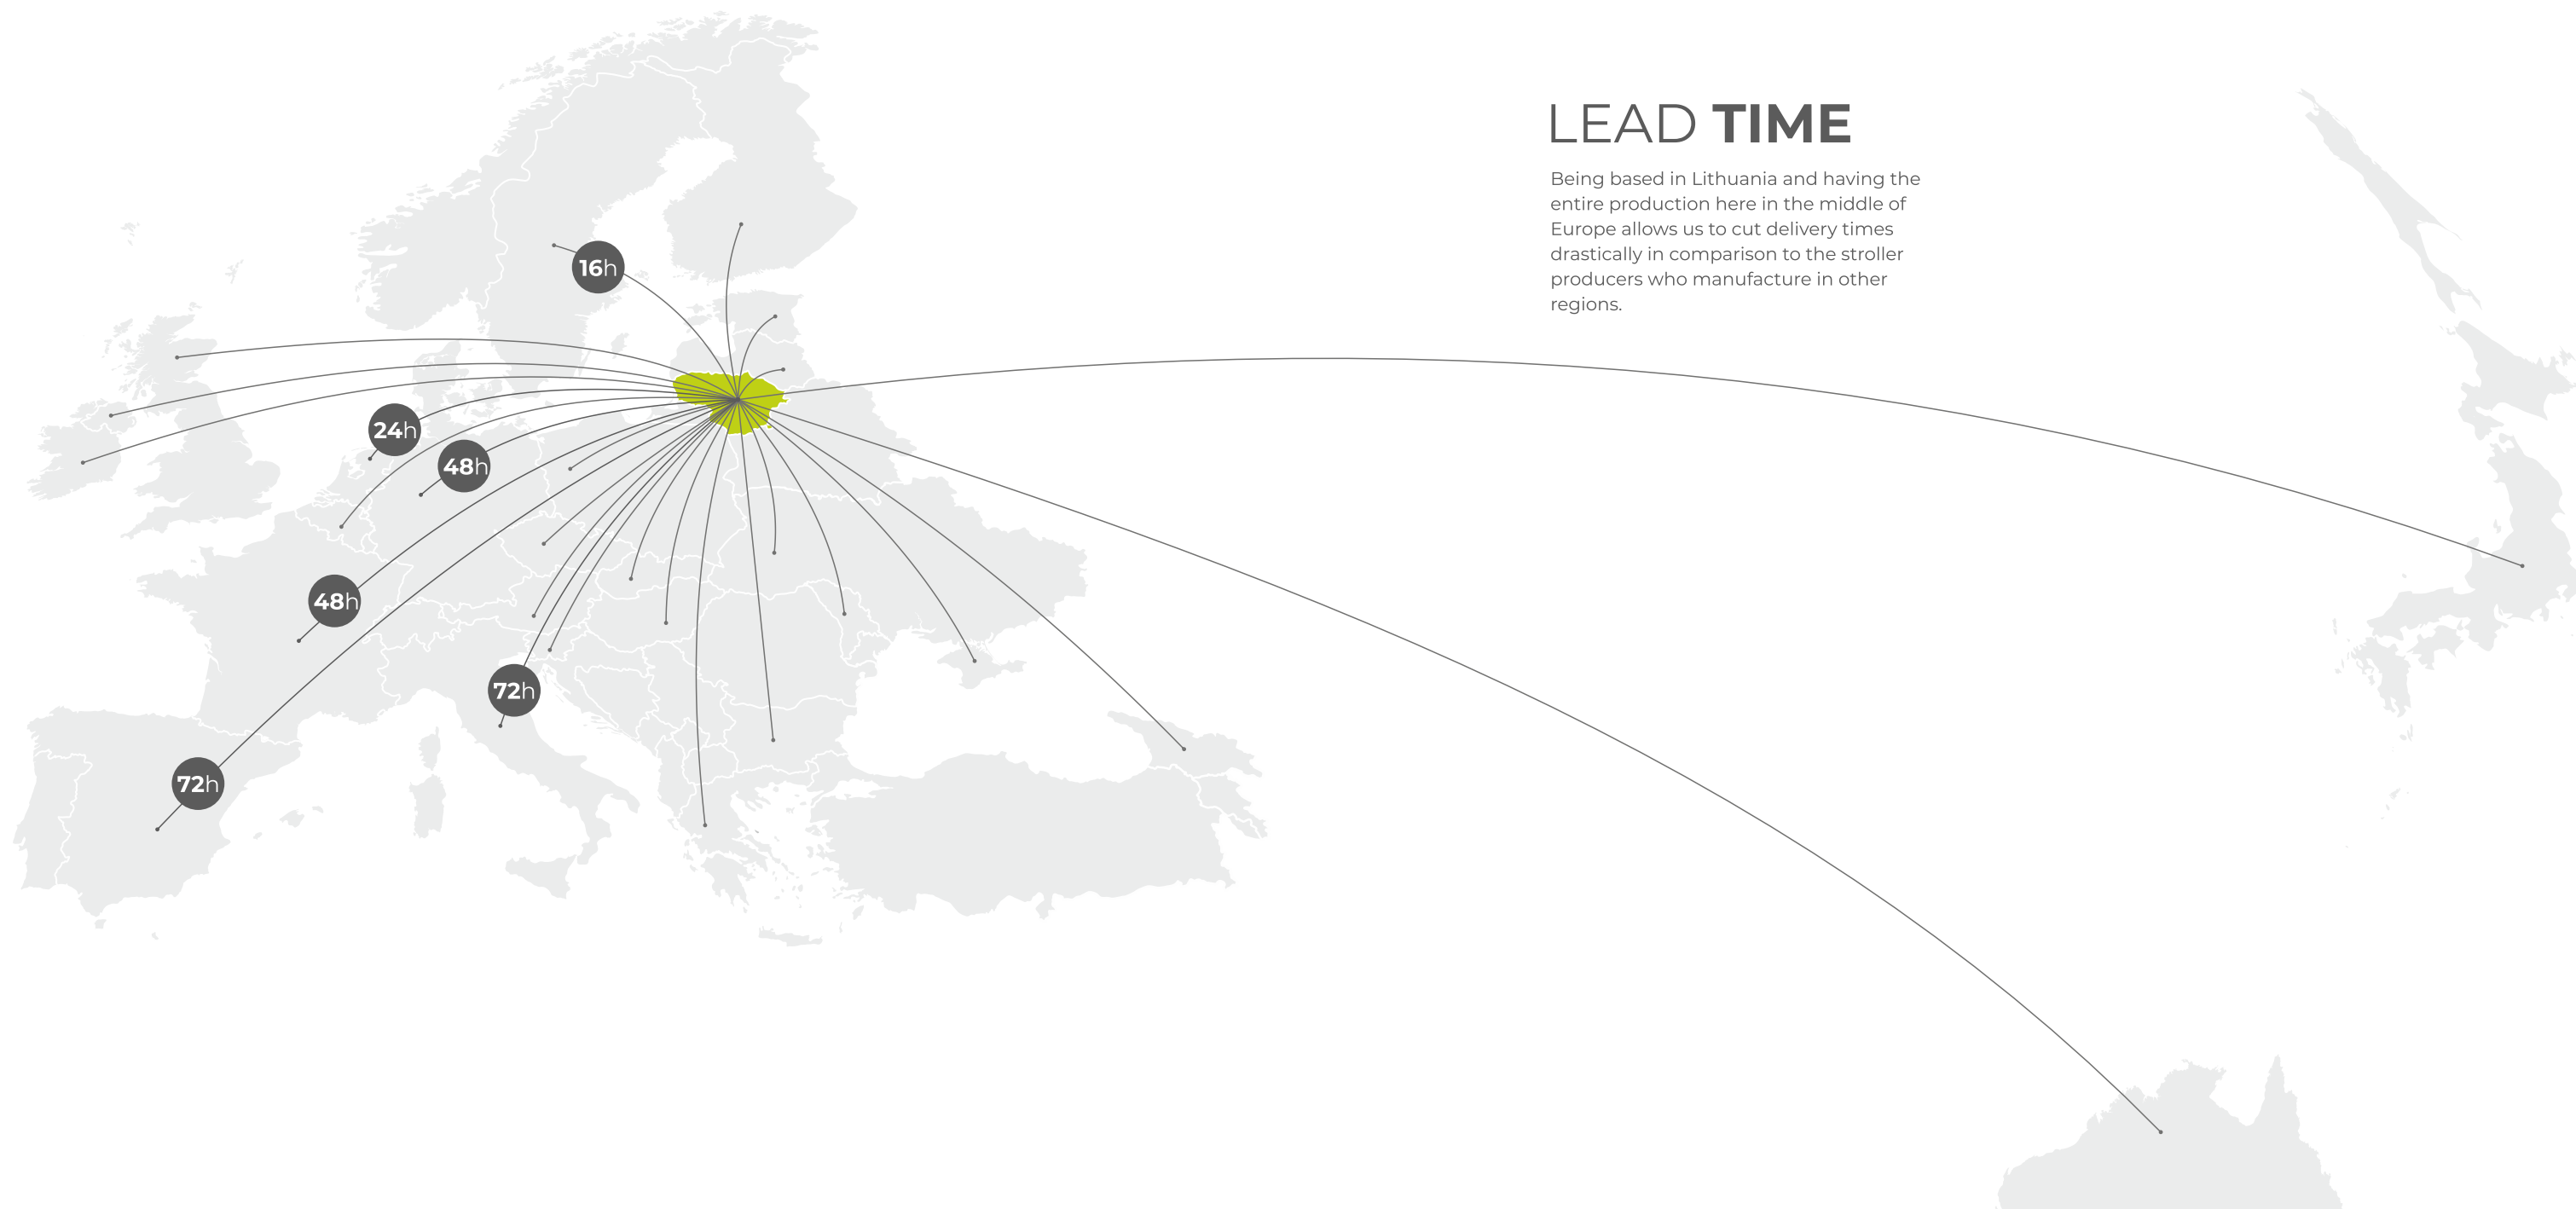

Our vision is to become one of the leading ergonomically sound and innovative stroller producers in Europe and to develop strollers ahead of their time.

Values

We are passionate about safety, tenderness and practicality, therefore, we create products that reflect these pillars.

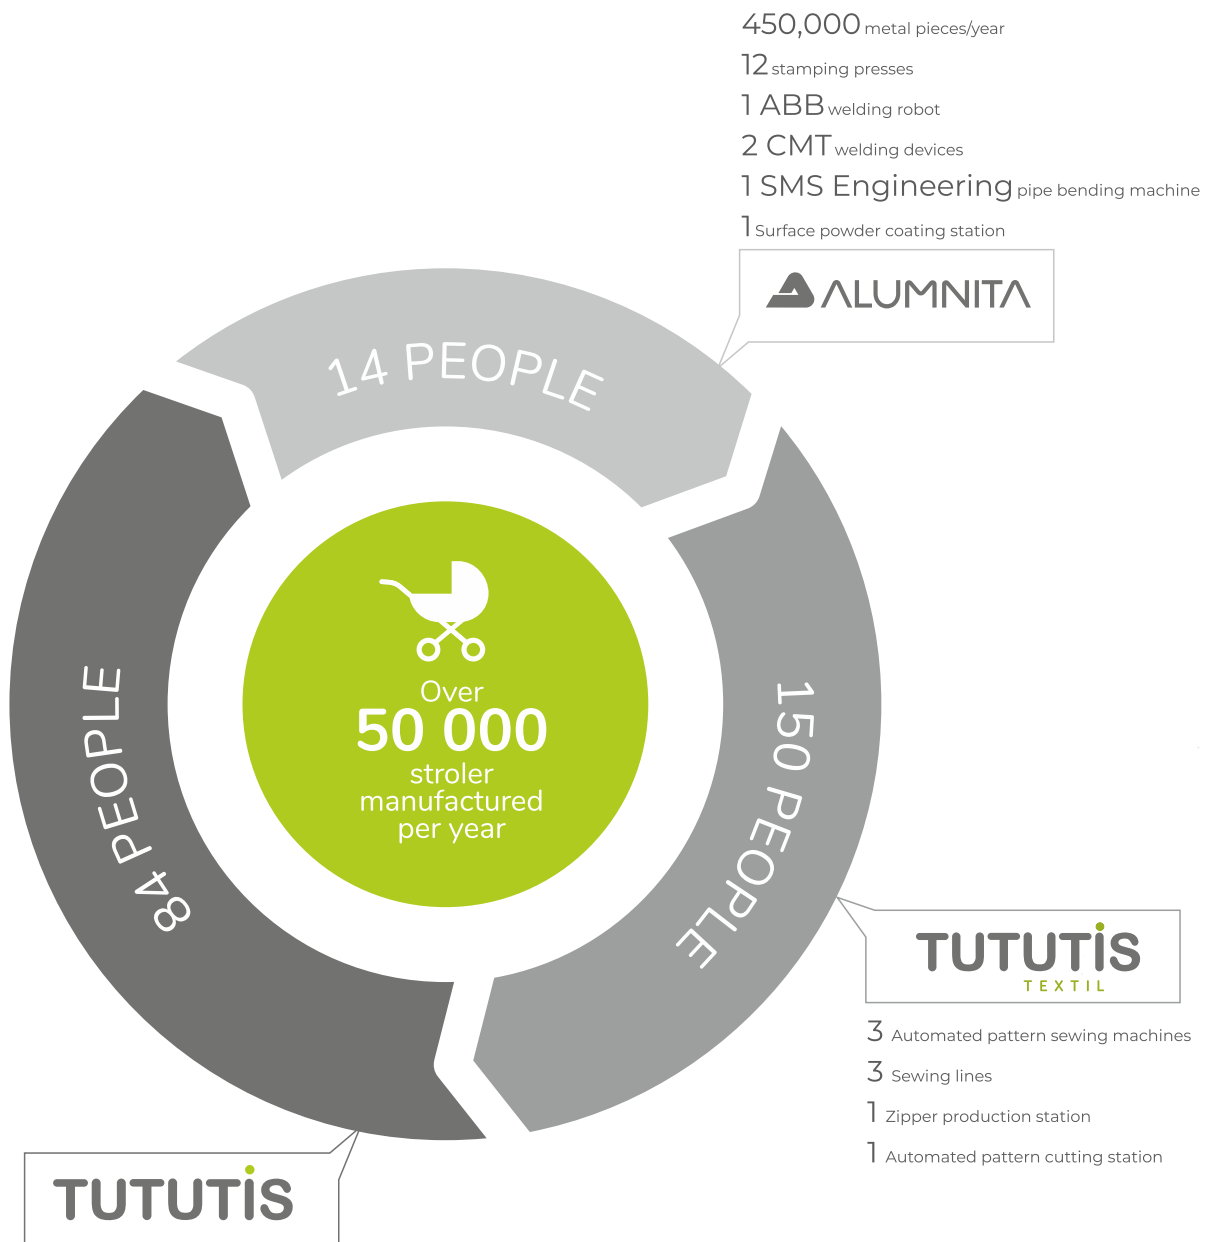

GLOBALLY CERTIFIED

LEAD TIME

Being based in Lithuania and having the entire production here in the middle of Europe allows us to cut delivery times drastically in comparison to the stroller producers who manufacture in other regions.

ALUMNITA

Metal processing company Alumnita was established in 2014. The company focuses on five main metal processing activities: stamping, tube bending, welding, powder coating, and milling.

Alumnita began operating as a maker of chassis for Tututis strollers. Now it has grown into a modern manufactory, able to provide metal services to external partners.

TUTUTIS **TEXTIL**

Tututis Textil, established in 2014, is a full-service cut and sew manufacturer of highly-crafted sewn products. The company combines delicate hand sewing with an automated one. The professionals working in this company take care of all Tutis and Noordi sewings and assist the designers and product developers in the selection of fabrics for garments and product development.

INNOVATIONS

THERMOCOT™

ThermoCot™ is the most successful TUTUTIS technology. It is next generation thermal carrycot made a combination of a polyethylene materials that give the carrycot outstanding of lightweight, durability, and strength characteristics.

Ultralight

weighs only 0,6 kg

Robust

can withstand up to 104 kg weight and
24 kg hit from 0,5 meter high

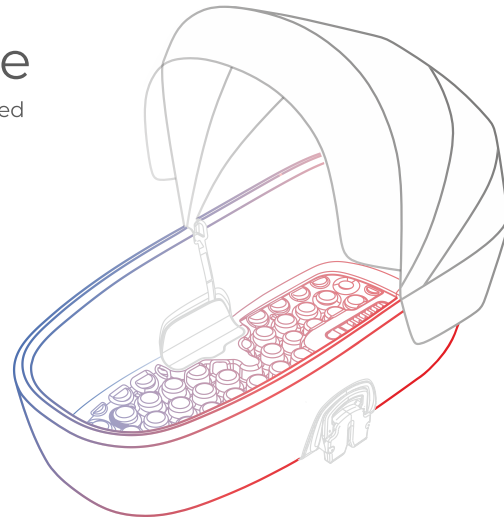

Thermal resistance

65.9 times better thermal resistance compared
to a plastic carrycot

Safety

produced from a similar
material used in the production
of safety helmets

ALL-ROAD™ TECHNOLOGY

Designed by Tututis in-house engineering team, the All-Road™ Technology wheels are perfect for conquering off-road and forest paths, while ensuring comfort for everyone involved.

More Resistant

significantly more resistant to scratches and deformation

Easy to Maneuver

easy to maneuver the wheels as well as protect them from corrosion

Embossed Line

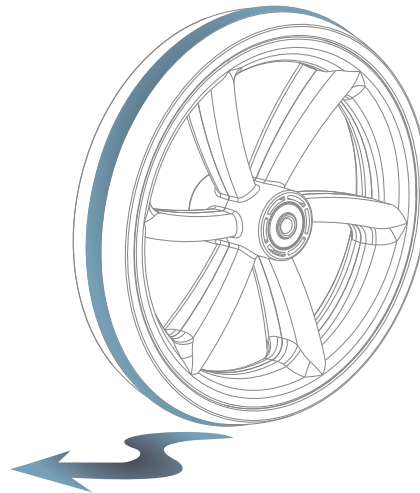

PU tire technology with an embossed line distributes the weight for agile and tender strolling

EasyPassage

easy passage regardless of the terrain

70% of

of the total weight absorbing bearings

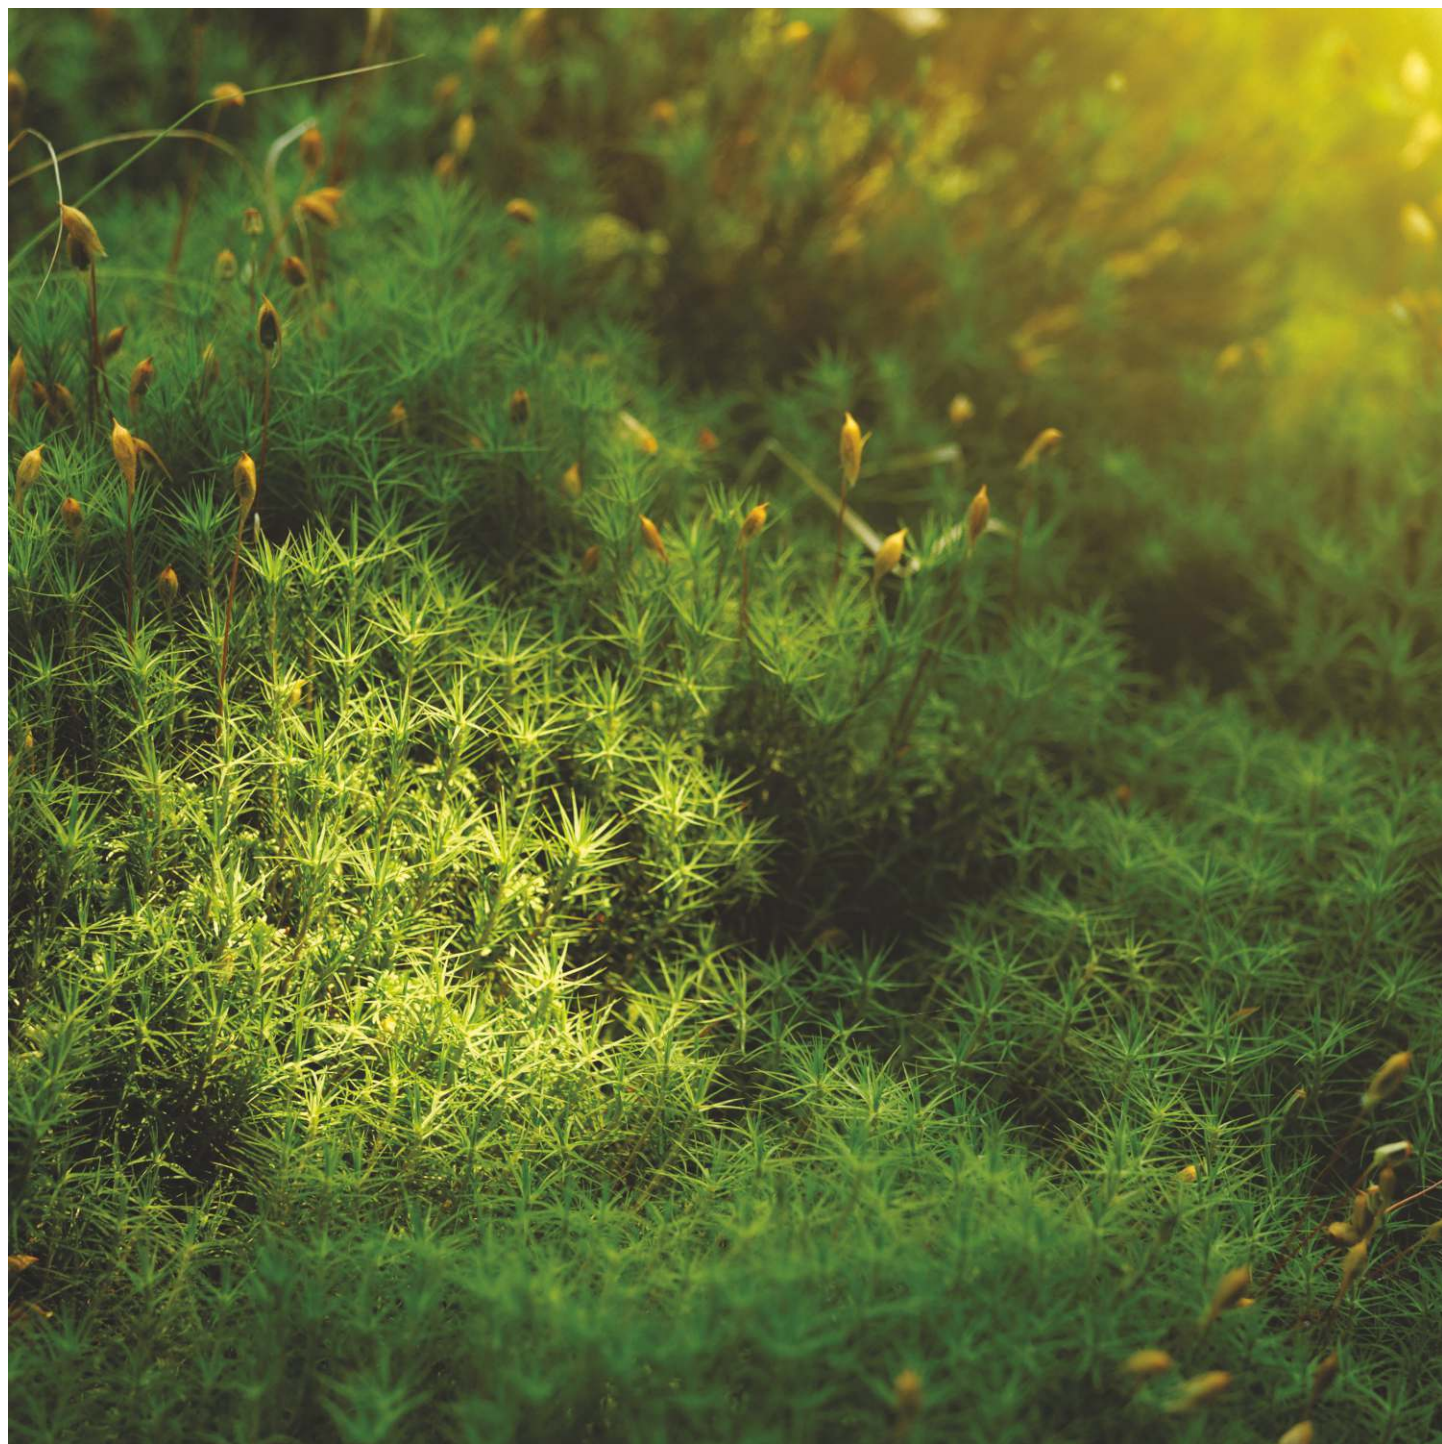

TRIPLE TESTING

Tututis quality testing system
contains **3 levels**:

- | | |
|----------------|---|
| 1. | Pre-production: internal testing and external testing labs are in Italy and Spain. |
| 2. | Production: 5-spot assembly testing points, every 10th fully assembled stroller tested to assure quality. |
| 3. | Aftersales: real-life parent testing and aftersales service in Tututis headquarters or at local service centers. |
| 2 LABORATORIES | |

SUSTAINABILITY

60%	Over 60% of all Tututis energy consumption and entire water heating is from renewable sources of energy.
LOCAL WORKFORCE	By employing a local workforce and producing locally we manage to avoid additional transportation, and thus reduce greenhouse gas emissions.
30%	30% reduced carbon oxide usage by implementing upcycling initiatives and using more natural materials.

PRIVATE LABELS

Tutis has been known for its quality and reliability for over two decades. The core basis of this brand is based on tenderness. In terms of design choices, we create our products to have a cozy feeling – Tutis products have soft edges and the materials used are pleasant to the touch. We take inspiration from the modern world and try to make parents' life a little easier, thus, a great deal of care is devoted to the ergonomics and safety of the child.
