A black and white photograph of a modern building facade. The building features a series of horizontal windows and a prominent section with vertical corrugated metal siding. The word 'TUTUTIS' is mounted on the facade in large, white, three-dimensional block letters. A green semi-transparent banner covers the bottom half of the image.

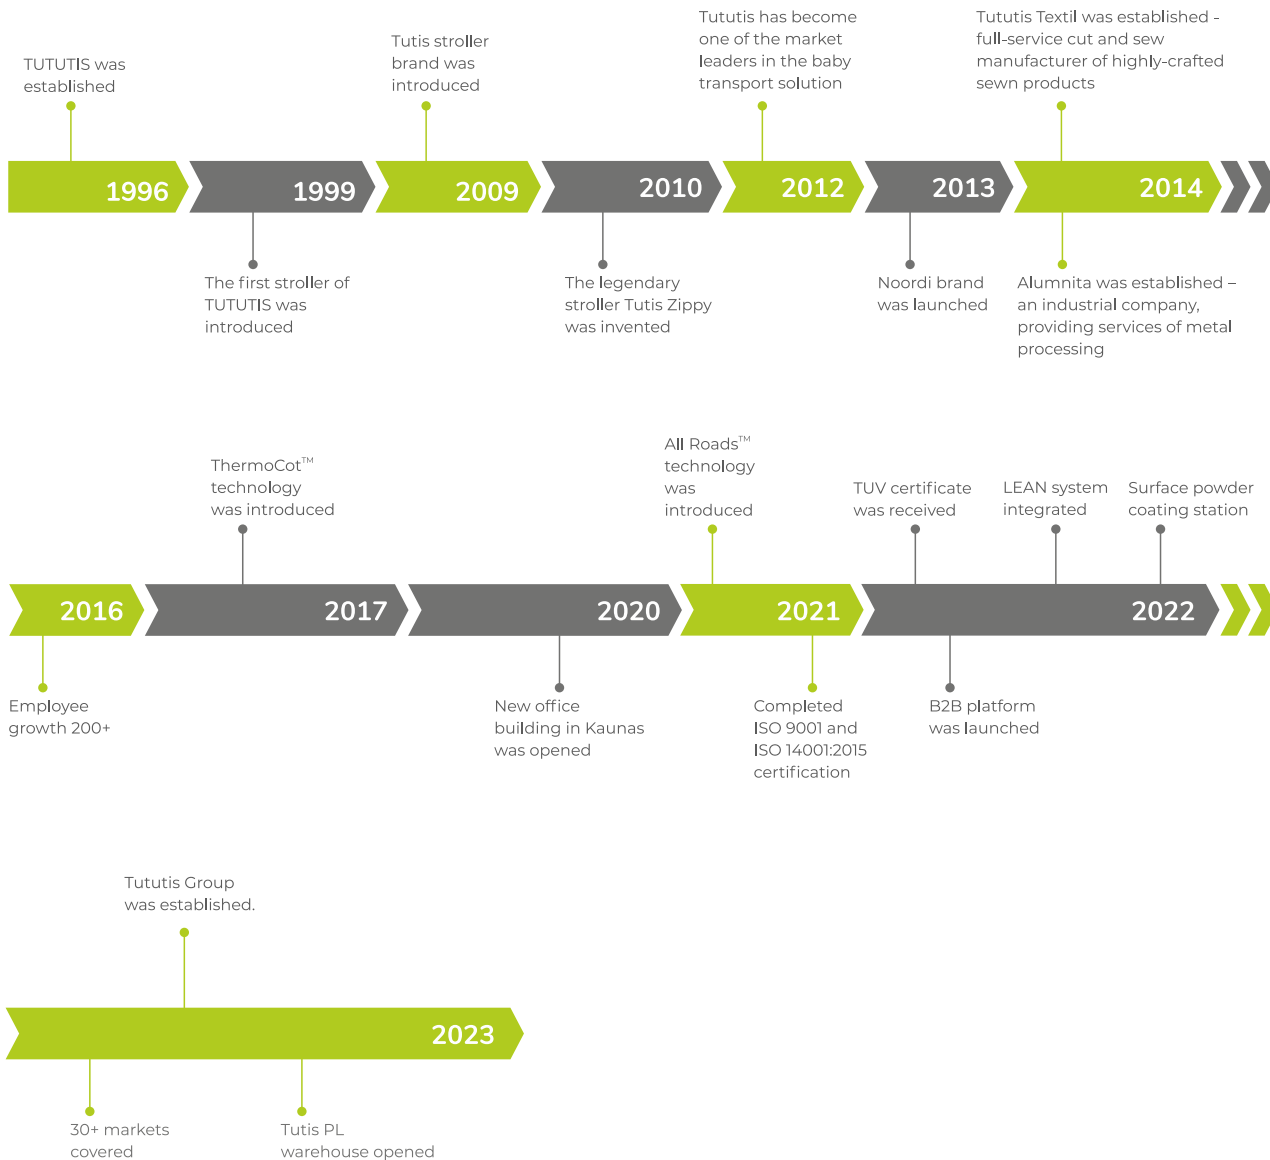

**TUTUTIS**

## WHO ARE **WE**?

We are Tututis, a baby stroller producer from Lithuania. We started as a small family business and through long-term experience, development and research, we have managed to establish two successful stroller brands, develop a wide portfolio of products and become the only baby stroller producer in the entire Baltic States.

# TIMELINE

27+ YEARS IN BABY TRANSPORT

## 2 INNOVATIONS

Over the years Tututis in-house engineering team has developed, and trademarked 2 innovations

200+ EMPLOYEES

300 SOLAR PANELS

32 MARKETS IN WHICH OUR PRODUCTS ARE SOLD

OVER 50,000

STROLLERS MANUFACTURED PER YEAR

### Mission

Our mission is to create innovative baby transport solutions, enjoyable for parents and safe for babies.

### Vision

Our vision is to become one of the leading ergonomically sound and innovative stroller producers in Europe and to develop strollers ahead of their time.

### Values

We are passionate about safety, tenderness and practicality, therefore, we create products that reflect these pillars.

## GLOBALLY CERTIFIED

# FLEXIBLE **DELIVERY**

Warehouses in Lithuania and Poland.

## PROMPT DELIVERY

Efficient work + always improving shipping processes = quick delivery from our warehouses. Saving time and working to make our clients 100% satisfied.

# WHY WORK **WITH US?**

## EFFECTIVE MARKETING STRATEGY

We will help to call attention to our products with strong competition and increasing demand. We will provide advertising and informational support.

## LONG-TERM DIRECT SUPPLY EXPERIENCE

Working with distributors and DIY networks in various countries. Associated experience of applying effective methods to increase sales and promote products.

## CERTIFIED CONTROL SYSTEM

Our products have the necessary technical and standardisation certificates.

## QUICK RESPONSE

Fast response to any issues. Always consulting our partners on the product range and effective ways to increase sales.

NEWEST TECHNOLOGY and testing  
assure high quality and up to date product.

B2B CLIENT E-SHOP for distributors & partners  
to order prams & accessories online.

# INNOVATIONS

## THERMOCOT™ TECHNOLOGY

ThermoCot™ is the most successful TUTUTIS technology. It is next generation thermal carrycot made a combination of a polyethylene materials that give the carrycot outstanding of lightweight, durability, and strength characteristics.

### Ultralight

### Robust

can withstand up to 104 kg weight and 24 kg hit from 0,5 meter high

### Thermal resistance

65.9 times better thermal resistance compared to a plastic carrycot

### Safety

produced from a similar material used in the production of safety helmets

Full Thermo Cot

Thermo Pad

# ALL-ROAD™ TECHNOLOGY

Designed by Tututis in-house engineering team, the All-Road™ Technology wheels are perfect for conquering off-road and forest paths, while ensuring comfort for everyone involved.

## More Resistant

significantly more resistant to scratches and deformation

## Easy to Maneuver

easy to maneuver the wheels as well as protect them from corrosion

## Embossed Line

PU tire technology with an embossed line distributes the weight for agile and tender strolling

## Easy Passage

easy passage regardless of the terrain

70% of

of the total weight absorbing bearings

# TRIPLE TESTING

Tututis quality testing system  
contains **3 levels**:

- |                |   |
|----------------|---|
| 1.             | <b>Pre-production:</b> internal testing and external testing labs are in Italy and Spain.                               |
| 2.             | <b>Production:</b> 5-spot assembly testing points, every 10th fully assembled stroller tested to assure quality.        |
| 3.             | <b>Aftersales:</b> real-life parent testing and aftersales service in Tututis headquarters or at local service centers. |
| 2 LABORATORIES |   |

## SUSTAINABILITY

|                    |  |
|--------------------|--|
| 60%                | Over 60% of all Tututis energy consumption and entire water heating is from renewable sources of energy.                                     |
| LOCAL<br>WORKFORCE | By employing a local workforce and producing locally we manage to avoid additional transportation, and thus reduce greenhouse gas emissions. |
| 30%                | <b>30%</b> reduced carbon oxide usage by implementing upcycling initiatives and using more natural materials.                                |

## CHOOSE US!

-  Branding and Exclusivity
-  Cost Efficiency
-  Customization and Flexibility
-  Quality Control
-  Business Ownership

Tutis has been known for its quality and reliability for over two decades. The core basis of this brand is based on tenderness. In terms of design choices, we create our products to have a cozy feeling – Tutis products have soft edges and the materials used are pleasant to the touch. We take inspiration from the modern world and try to make parents' life a little easier, thus, a great deal of care is devoted to the ergonomics and safety of the child.
